## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, drawn to a compound of general formula (i), classified in class 536.
  - II. Claims 5-7, drawn to a gelling agent comprises at least one compound of the group I , classified in class 514.
  - III. Claims 8-10, drawn to a gel composition comprising a gelling agent of the group II and at least one oil, classified in class 514.
  - IV. Claim 11, drawn to a cosmetic comprising a gel composition of the group III, classified in class 424.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II(III or IV) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for each group is not same, wherein a reference which anticipates the invention of Group I would not render the invention of Group II, III or IV obvious, absent ancillary art, restriction for examination purposes as indicated is proper. Even if there

were unity of classification, the search of entire groups and/or genus in the non-patent literature(especially, non-patent literature) and database search (a significant part of a thorough examination) would be burdensome, it is undue burden for examiner for the accurate and proper examination, restriction for examination purposes as indicated is proper.

***Conclusion***

3. No claim is allowed.

All the pending claims 1-11 are subject to the restriction requirement.
